

TURN SEQUENCE

- 1) **ROLL FOR INITIATIVE**
Between two players, roll high/low.
Among several players, roll dice for order.
Winner has choice of going before or after other player(s).
Adjustment to initiative roll cannot be greater than 3.
- 2) **RENEWAL OF CONTINUING SPELLS**
- 3) **MOVEMENT**
Each figure moves and faces in order from initiative.
- 4) **COMBAT - ORDER OF RESOLUTION**
 - a) Pole weapon attacks that involved charges.
 - b) All normal actions.
 - c) Second missile fire.
- 5) **FORCED RETREATS, SHOCK SHIELDS, and other "end of turn" effects.**

"READY" POSSIBILITIES

Characters may have ready:

- ... a 2-handed weapon
- ... a 1-handed weapon
- ... a shield
- ... a 1-handed weapon and shield
- ... 2 1-handed weapons

Special cases:

A molotai/grenade is a 1-handed weapon, but you need a torch to light it.

A magic scroll is a 2-handed weapon.

A gas bomb/explosive gem is a 1-handed weapon.

Small-sized	40
Normal-sized	70
Dwarf	85
Large-sized	140
Gargoyles	160
2-hex figure	500
3-hex figure	800

In general, ST times ST divided by 2 for 1-hex figure.

Special Load Situations

When swimming, character may carry his ST in kg. (Dwarves may carry 2 times their ST.)

Pulled load

100 times ST...for pack animals

Sustained load, walking

5 times ST...for characters
10 times ST...for dwarves
5 times ST...for pack animals
4 times ST...for fliers

FLIERS can carry a load 6 times their ST in kg. Flight Spell can carry a character and 50 kg (per hex of the figure.)

Lift

8 times ST...for fliers
(lose 20% ST per 2 minutes)
7 times ST...for characters
(-1 ST per 2 minutes)

SPECIAL ACTIONS

A mounted figure that is disengaged may:

- 1) move more than half its MA and a) take no action b) JUMP OFF (make DX roll to avoid injury)
- 2) move up to half its MA and c) CHARGE AND ATTACK
- 3) move up to 2 hexes and d) MOUNT (becoming a mounted figure)
- 4) stand still and e) DISMOUNT (figure may move up to 2 hexes after dismounting)

A mounted figure that is engaged may:

- 1) shift one hex possibly trampling a downed foe and f) ATTACK

Most normal actions are available to a mounted figure under the same restrictions as an unmounted figure.

MOVEMENT

- 1) Hand to Hand (HTH)
No movement allowed
- 2) Engaged (any posture)
Shift one hex maximum
Must remain adjacent to any
engaging enemies
- 3) Prone/Crawling
Each hex crawled counts as
half MA
- 4) Kneeling
No movement allowed
- 5) Standing
May move up to full MA
- 6) Flying
May move up to full flying
MA

You may switch between prone and crawl without penalty (for playing purposes, the positions are identical).

Dropping to a crawl posture costs nothing.

You may rise from a prone/crawl posture to a kneeling/standing posture during movement. It costs your full MA.

Entering a hex with a body/prone figure requires a 3vsDX or fail.

Jumping a hex with a body/prone figure costs 1 MA extra.

Running (moving over half MA) over broken ground requires one roll of 3vsDX—2 once; if fail, then roll to determine where figure falls.

Grabbing a dropped weapon/object costs 3MA or a 3vsDX.

Fliers taking off use half their MA doing so.

ROLLING TO HIT

Die Roll	Result
3	All weapons: triple damage Missile spells: triple damage Thrown spells: automatic hit Creation spells: automatic hit Special spells: as appropriate for spell
4	Same as for 3 above, but double instead of triple
5	Automatic hit
6-15	If less than your DX, then you hit If equal to your DX, then you hit If more than your DX, then you missed
16	Weapons: automatic miss Missile spells: target missed, spell continues Thrown spells: 1 ST, no effect Creation spells: 1 ST, nothing shows up Special spells: 1 ST, no effect
17	Bare hands/animals: take a die of damage All weapons: you dropped your weapon Missile spells: if first roll then full ST and spell didn't work, else spell stops Thrown spells: 1 ST, no effect Creation spells: 1 ST, nothing shows up Special spells: as appropriate for spell
18	Bare hands/animals: take a die of damage All weapons: if first roll, then shooter breaks, otherwise projectile breaks Missile spells: if first roll then full ST & you fall down, otherwise spell stops

ROLLING TO MISS

Die Roll	Result
3	Automatic miss
4-13	If less than your DX, you missed. If equal to your DX, you missed. If more than your DX, full damage if figure is a friend. If not a friend, attack stops/weapon drops.
14	Automatic hit
15	Hit and double damage
16	Hit and triple damage
17	Drop weapon
18	Weapon breaks

To miss a figure with unarmed combat skill or a dodging/defending figure: If normally rolling 4 dice to hit, roll two dice. 11 is an automatic hit; 12 is treated as 18. If normally rolling 5 dice or more, then you automatically miss.

When rolling a 17 or 18, the first such roll determines the attacker's result. If a 17 or 18 comes up after the first roll, it effects the attack only, not the attacker.

* — This weapon may be thrown — see THROWN WEAPONS.

† — This is a two-handed weapon. If the fighter has a shield, it must be slung on his/her back while the weapon is ready.

The DX- for various kinds of armor and shields are for figures of normal ST. Figures with very great ST (18 or over) can use armor and shields with less difficulty.

All the costs given above are for normal weapons. Finely-made or enchanted weapons (q.v.) will have special properties. Weapons and armor made of silver, instead of iron, are available. Such equipment is necessary for wizards who wish to fight without an extra DX-

Silver weapons and armor cost 10 times as much as ordinary ones. They weigh the same, do the same damage, and require the same ST to use. If a weapon has ANY metal parts, they must be of silver for a wizard to use that weapon without injuring his magical abilities.
